

COVID-19 Cases at State Supported Living Centers and State Hospitals

This information shows the number of people served in state hospitals and state supported living centers who have tested positive for COVID-19 since March 19. It also includes the number of people served who have recovered from COVID-19 since March 19.

As of 4 p.m., May 20, 2020:

- **Total population served:** 4,698
- **Total number of facilities:** 23
- **Total positive cases among patients and residents:** 161
- **Current number of facilities with at least one positive patient or resident:** 7
- **Residents and patients who have recovered:** 107
- **Resident and patient deaths due to COVID-19-related complications:** Fewer than 10

Note: Earlier versions of this document double-counted some positive results.

For more information about what SSLCs and state hospitals are doing to prevent the spread of COVID-19 at HHSC facilities, please contact healthandspecialtycare@hhsc.state.tx.us.
